

ORGANIZED

For decades, we've been told that food service work is temporary or for the unskilled and unambitious. We've been told that workers in this industry cannot be organized and should just be thankful for anything they get. We know we're worth FAR more than the scraps we're given!

WE are NOT disposable!  
We are the reason Freshii makes millions every year. When we all come together, we can finally claim what's always been rightfully ours:

Dignity, respect, pride, and our fair share of the profits WE have made.
